Live a day like a stray dog running freely in a field full of other friendly animals, such as cows, frogs or even humans, and interact with the characters to start missions. You can form a family once you have met another dog of the opposite sex, so start to think about collecting some food for your puppy. Be careful with more threatening animals that might want to hurt you if you get too close. Show the world that you are not meant to be someone's pet and do your best to survive in this cool 3D dog simulator! Have fun! Give us a shout and tell us what you want to play next!facebook.com/glutenfreegamestwitter.com/glutenfreegames ..... I'm much happier with her. However, I have a lot of suggestions, so please read! Please! 犬猫シミュ If you like dogs, ☺ get this app. It's not perfect, but the closest thing to it. So the first thing I noticed was that there were a lot of errors in the game. There are still are, but realizing that this game is actually very big, I'm ok with that. However, I have a few requests. I wish there was more than one house to live in, because although I like the house you have there should be more. Maybe another similar house, but with a male owner, or an entire human family. Also, maybe you should have one thing where, when you go inside a house of people you can choose to get adopted you get a collar, and if you're tired of being adopted you can get rid of it. Last thing, I promise! Okay, so I guess to make it more realistic, you should have a chicken trash at some point. At least 2 or 3. Maybe a maximum of four or five? If you want to do that, but change the level you can have chickens at a higher level, that's good for me. I'm sorry it was so much. Thanks so much if you read everything. Please consider these suggestions. Please. I absolutely love this game!!! But, I also feel like it could be even better!!! So please read this, gluten-free games, because I hope you add these for the second! CAUSE U better make a FINAL DOG SIM 2! First of all, after other people said, I would like to have bedding, different choices home, and family. Maybe a family could have kids, or another dog, or even a cat! Also, if you could put collars too. And more places to go! As instead of just boring old house, (the only place you can really go), maybe vet, dog park, pet store, etc. Another idea, man may have actions that you Make! It's super boring when I sit around all day every day! They could play with you, feed you and take you to places!!! ☹ And last but not least, more mating options!!! U could mate with a LUP, and have problems would be the pack of wolves. Or please read this part of his favorite, just please u mate with more than your race! I'd really like it if you could mate with different races than yours! It gets boring when hv is the same race. That way, u might have CROSSBREEDS!!!! Please consider these things, if you do, I'll find a way to give you guys extra money!!! Also sorry for the long review! ☺ This game is awesome, it's one of my favorite games. I have a few things you can add. Maybe at first you could start out as a puppy with your mom instead of being able to hunt and do stuff like that. I also think you should be able to have a chicken trash instead of just one at a time that would make it more realistic. Also, maybe when you get adopted you can get a collar and you can tell you you've been adopted. And maybe you should make it harder to hunt. It's kind of unrealistic. I also think you should have your suggestions for other animal simulators. I also think you should make the other dogs not be so bad. You should make them not want to kill you. One more thing, I think when the place beats you instead of killing you, it takes it to the shelter and then you can be adopted. Thank you so much for making these wonderful games I love. And please don't close the deal! I really want you to make a final simulator cat warrior! Anyway, thanks for making this awesome game!
